# SAFE & SECURE HOME SYSTEM

The CAVIUS hub will allow you to communicate with the CAVIUS wireless devices through the CAVIUS App on your smartphone or tablet, providing an early warning system and reliable informations on your devices status.

The CAVIUS hub and App works as a safety and security system. If you have a fire or a water leak you will get a notification. If someone breaks in your house you will get a warning.

Invite your friends and neighbours to be notified.

CAVIUS APP

1 CONNECT THE HUB TO THE INTERNET

2 DOWNLOAD THE CAVIUS ALARM APP FOR FREE

3 FOLLOW THE EASY INSTRUCTION - READY TO GO!

CAVIUS  
HUB

# MAKE YOUR LIFE EASIER

With CAVIUS flood alarm connected to the hub, just relax when you are on holidays!

Heavy rain, water leak in your basement, hidden leak behind the washing machine... you will always get an early warning on your smartphone or tablet. And if you are not available, you can just pass on the alarm to a neighbour or relative.

Test your alarm while sitting comfortably in your sofa. Receive a low battery notification from your alarms. CAVIUS hub connected to CAVIUS smoke and heat alarms will bring you additional safety and peace of mind.
